Starting from early July 2023, join us every Monday at 13:30 (GMT) for a 15-minute presentation followed by questions and discussions, all held online via [Zoom](#). Over the course of 10 sessions, we will explore various aspects of research data management, with a particular focus on catalysis and chemistry.

In our fourth session of the Coffee Lecture series on RDM we explore the world of Data Management Plans (DMPs), uncovering strategies for creating comprehensive plans that ensure data integrity, accessibility, and long-term preservation of your valuable research data. Discover how DMPs can revolutionize your research process!
