

Clara Immerwahr Award: Call for applications

Start Time: Thursday, September 22, 2022

End Time:

The call for applications for the Clara Immerwahr Award 2023 is now open. The application deadline is November 13, 2022.

The Clara Immerwahr Award, launched by UniCat in 2011, is an award for promoting equity and excellence in catalysis research fostering young female scientists at an early stage of their career. The award is dedicated to Dr. Clara Immerwahr (1870-1915), who was the first woman in Germany to earn a doctorate in Physical Chemistry in 1900.

The Clara Immerwahr Award is, now by UniSysCat, conferred annually to a young female scientist from Germany or abroad at an early stage of her career (postdoctoral fellow, junior researcher) for outstanding results in Catalysis Research. It is associated with a financial support of **15.000 Euro** for a research stay at UniSysCat and thought to establish close collaborative links with UniSysCat working groups.

You want to apply or recommend the award to suitable candidates? You can find more information about the award and the application process [here](#).

Interested in the awardees of the last years? They are all excellent young female researchers with great careers and fascinating research ideas. We introduce them to you! Find out more
