

Long Night of Sciences

Start Time: Saturday, June 15, 2019 05:00 pm

End Time: Saturday, June 15, 2019 11:00 pm

This year UniSysCat took part of the Long Night of Sciences, dubbed as one of the “smartest nights of the year”, at the Chemistry Institute of the Technical University of Berlin. Throughout the evening, a range of events and experiments were open for display for guests of all ages. Experiments and sections of the institute which are normally sealed off for guests were opened for this yearly event in order to give outsiders an inspiring insight into the world of chemistry and catalysis
