

UniSysCat special lecture and inaugural lecture for the presentation of the Humboldt Research Award

Prof. Omar M. Yaghi

*Bakar Institute of Digital Materials for the
Planet, University of California-Berkeley*

Start Time: Monday, March 4, 2024

End Time: Monday, March 4, 2024

C 264

Organic Chemistry for Solving the Climate Problem

Prof. Omar M. Yaghi

Bakar Institute of Digital Materials for the Planet, University of California-Berkeley

This presentation is about how covalent organic frameworks have extended organic chemistry in infinite 2D and 3D, thereby allowing their use in carbon capture and water harvesting from air.

Prof. Dr. Arne Thomas
