

EC²/BIG-NSE Jubilee and Alumni meeting

Start Time: Monday, October 28, 2024

End Time: Tuesday, October 29, 2024

Technische Universität Berlin

The doctoral programme EC²/BIG-NSE is 17 years old this year! This anniversary deserves a celebration! We are therefore inviting former scholarship holders from all over the world to come back to Berlin, who became professors, industry representatives, patent attorneys, startup founders and many more. We are very much looking forward to seeing what has become of the former PhD students of EC²/BIG-NSE.

At TU Berlin, we will meet for two days to network, listen to presentations and celebrate the anniversary together. The programme will be published shortly.

The doctoral program the [Einstein Center of Catalysis \(EC²/BIG-NSE\)](#) supports PhD education by recruiting and supporting excellent PhD students from all over the world. The mission of the doctoral program is to overcome the frontiers of classical disciplines in catalysis. It is dedicated to strengthening modern catalysis research by bundling the rich expertise in the Berlin region and generating novel synergies.
