

Gerhard Ertl Lecture 2024

Prof. Dr. Graham Hutchings.

Cardiff University

Start Time: Tuesday, December 10, 2024

End Time: Tuesday, December 10, 2024

The Gerhard Ertl Lecture Award, named after UniSysCat's spiritus rector Gerhard Ertl who won the 2007 Nobel Prize in Chemistry, is an annual award that recognizes the outstanding work of researchers in the field of catalysis. Sponsored by BASF and established in 2008 by the three Berlin universities, [UniCat](#) (the predecessor of UniSysCat) and the Fritz Haber Institute of the Max Planck Society, the prize not only honours exceptional achievements, but also promotes the exchange of innovative ideas in catalysis research. This year's awardee is [Prof. Dr. Graham Hutchings](#) from Cardiff University.

On December 10, 2024 he Huntchings will be ceremoniously honored at the Fritz Haber Institute Berlin. where he will deliver his award lecture on "catalysis using gold containing materials". We would like to cordially invite you to this event:

Catalysis using gold containing materials

Tuesday, 10 December 2024 at 4 pm

in the Harnack House

lnnestr. 16-20, 14195 Berlin

We look forward to welcoming you there.

Program

4:00 pm **Welcome**

Prof. Dr. Beatriz Roldán Cuenya

(Executive Director of the Fritz-Haber-Institut Berlin)

4:05 pm **Greeting**

Prof. Dr. Julia von Blumenthal
(President of the Humboldt-Universität zu Berlin)

4:10 pm **Laudatio**

Dr. Detlef Kratz
(BASF SE)

4:20 pm **Lecture**

Prof. Dr. Graham Huchtings
(Cardiff University)

5:30 pm **Reception**
